THIS FORM SHOULD BE USED ONLY BY STUDENTS WHO HAVE 56 OR MORE CREDITS AND WISH TO ACCELERATE THEIR TEACHER EDUCATION SEQUENCE

College of Education Planning Grid for SECONDARY EDUCATION STUDENTS

Name: _______________________________________________ PID: ___________________________

Please print (Last Name) (First Name) (MI)

Instructions: Please meet with your academic advisor in your major department if you are planning to graduate and meet all internship requirements (see below) by Spring or Summer 2011. Plot out all required courses for your degree, your teaching major, and your teaching minor, with TE 302 in Summer 2010 (or Fall by approval), TE 407/STA 481 in Fall 2010 and TE 408/STA 482 in Spring 2011. You must return this form to the Student Affairs Office, 134 Erickson Hall by November 23, 2009. Please understand that the acceleration option is dependent upon space availability in the Fall 2011 internship. The option to accelerate must be modified for CSD and Music Education students. These students may submit a modified plan signed by their departmental advisor.

Fall Semester | Spring Semester | Summer Semester
---|---|---

Credits for graduation _________

All secondary education students, except Music Education majors, must have their bachelor’s degrees awarded prior to beginning the internship. In addition, students must have completed all requirements for their teaching major and teaching minor, as well as teacher certification coursework. Students will be held to a minimum GPA of 2.5 for each of the following: university overall cumulative GPA, teaching major, teaching minor, and TE/CEP courses (with no individual grade in an Education course below 2.0). Students must also pass the required MTTC subject test(s) prior to the internship year.

I have reviewed the requirements, including Teacher Education courses, and will be able to complete all required coursework by Summer Session 2011 so I am eligible to begin the internship in Fall Semester 2011, provided space is available.
